AI Prompt Pack: Business Growth Arsenal

20 ChatGPT/Claude Prompts for Solopreneurs & Small Business Owners

Category: Marketing & Sales

Prompt 1: Cold Email Writer

You are an expert B2B cold email copywriter. Write a cold email for [PRODUCT/SERVICE] targeting [TARGET AUDIENCE].

Requirements:
- Subject line: under 50 characters, curiosity-driven, no spam words
- Opening: personalized hook based on [PROSPECT DETAIL]
- Body: 3-4 sentences max, focus on one specific pain point
- CTA: low-friction (question, not meeting request)
- Tone: professional but human, not salesy
- Include: social proof hint, one specific metric

Output format:
Subject: [subject]
Body: [email body]
Follow-up (Day 3): [follow-up email]

Prompt 2: Social Media Content Calendar

Create a 30-day social media content calendar for [BUSINESS/NICHE].

For each day provide:
- Platform (Instagram/LinkedIn/Twitter/TikTok)
- Content type (carousel, reel, text post, story)
- Hook/headline (attention-grabbing, under 10 words)
- Key message (one sentence)
- CTA
- Best posting time

Mix content types: 40% educational, 30% behind-the-scenes, 20% promotional, 10% engagement/UGC.

Output as a table: Day | Platform | Type | Hook | Message | CTA | Time

Prompt 3: Landing Page Copy

Write high-converting landing page copy for [PRODUCT/SERVICE].

Structure:

1. Hero Section: Headline (benefit-driven, under 8 words), Subheadline (what + who + how),

CTA button text

2. Problem Section: 3 pain points the target audience faces

3. Solution Section: How your product solves each pain point

4. Features: 4 key features with benefit-focused descriptions

5. Social Proof: 3 testimonial templates (name, role, quote)

6. FAQ: 5 common objections with rebuttals

7. Final CTA: Urgency + guarantee + button

Tone: confident, clear, no jargon. Target: [AUDIENCE]

Prompt 4: Product Description (E-commerce)

Write an SEO-optimized product description for [PRODUCT].

Include:

- Title: [Primary Keyword] + [Benefit] (under 60 chars)

- Meta description: 150-160 chars with keyword

- H1: Product name

- Opening: 2 sentences highlighting main benefit

- Bullet points: 5 key features -> benefits

- Story section: 3 sentences about use case

- Specifications: table format

- CTA: urgency-driven

Keywords to include: [KEYWORD1], [KEYWORD2], [KEYWORD3]

Prompt 5: Ad Copy (Facebook/Instagram)

Write 5 variations of Facebook/Instagram ad copy for [PRODUCT/SERVICE].

For each variation:

- Primary text (125 chars max, hook in first 3 words)

- Headline (40 chars max)

- Description (30 chars max)
- CTA button recommendation
- Target audience suggestion

Angles to use:
1. Problem -> Solution
2. Social proof / testimonial
3. Curiosity / question
4. Urgency / scarcity
5. Benefit-driven / transformation

Include: emoji usage (1-2 per ad), no ALL CAPS, clear value proposition.

Category: Content Creation

Prompt 6: Blog Post Outline

Create a comprehensive blog post outline for: "[TOPIC]"

Target keyword: [KEYWORD]
Target audience: [AUDIENCE]
Word count target: [1500-2500]

Structure:
- Title (SEO-optimized, under 60 chars)
- Meta description (150-160 chars)
- Introduction (hook + problem + promise)
- 5-7 H2 sections with 2-3 H3 subsections each
- Key points per section (3-5 bullets)
- Conclusion with CTA
- FAQ section (5 questions)
- Internal/external link suggestions

Include: statistics to research, expert quotes to find, images to create.

Prompt 7: YouTube Script

Write a YouTube video script for: "[TOPIC]"

Target length: [5-10] minutes

Style: [Educational/Entertaining/Review]

Structure:

- Hook (first 5 seconds): pattern interrupt + promise
- Intro (15 seconds): credibility + what they'll learn
- Main content: 3-5 key points with examples
- Story/case study (optional)
- CTA: subscribe + comment + next video
- Outro: recap + end screen

Include: B-roll suggestions, on-screen text, timestamps.

Tone: conversational, energetic, not robotic.

Prompt 8: Email Newsletter

Write a weekly email newsletter for [BUSINESS/BRAND].

Subject line: [compelling, under 50 chars]

Preview text: [complement subject, under 90 chars]

Sections:

1. Hook (personal story or insight) - 2-3 sentences
2. Main content (value/tip/lesson) - 3-4 paragraphs
3. Quick wins (3 actionable tips) - bullet points
4. Resource/tool recommendation (with affiliate link placeholder)
5. CTA (reply, click, share)
6. P.S. (bonus tip or urgency)

Tone: [friendly/professional/casual]. Length: 300-500 words.

Prompt 9: Twitter/X Thread

Write a Twitter/X thread about [TOPIC].

Format:

- Tweet 1 (hook): Bold claim or surprising stat, end with "" or "Thread:"
- Tweets 2-8: One idea per tweet, 200-280 chars each
- Each tweet: standalone value + connection to next
- Include: 1-2 data points, 1 personal anecdote, 1 actionable tip

- Final tweet: summary + CTA (follow, retweet, reply)

Style: [educational/storytelling/contrarian]. No fluff.

Prompt 10: Product Review

Write an honest, SEO-optimized product review for [PRODUCT].

Structure:

- Title: [Product Name] Review: [Verdict] ([Year])
- Verdict box: Rating (X/10), Best for, Not for, Price
- Introduction: What it is, who it's for
- Pros: 5 specific advantages
- Cons: 3 honest drawbacks
- Features deep-dive: 4 key features with real usage
- Comparison: vs top 2 competitors (table)
- Pricing: plans breakdown
- Who should buy: 3 audience types
- Final verdict: 2-3 sentences
- Affiliate disclosure

Tone: objective, detailed, trustworthy. Word count: 1500-2000.

Category: Business Operations

Prompt 11: Business Plan Generator

Create a lean business plan for [BUSINESS IDEA].

Sections:

1. Executive Summary (50 words)
2. Problem & Solution (3 sentences each)
3. Target Market (demographics + psychographics)
4. Competitive Analysis (3 competitors, SWOT)
5. Revenue Model (pricing, channels, projections)
6. Marketing Strategy (3 channels, budget allocation)
7. Operations (team, tools, processes)
8. Financials (startup costs, break-even, 12-month projection)
9. Risks & Mitigation (top 3)

10. Milestones (30/60/90 day goals)

Format: structured, actionable, no fluff. Include specific numbers.

Prompt 12: SOP Creator

Create a Standard Operating Procedure for: [PROCESS/TASK]

Format:

- Title: [Process Name] SOP
- Purpose: one sentence
- Scope: who does this, when
- Prerequisites: tools/accounts needed
- Steps: numbered, each with:
- Action (imperative verb)
- Details (specific instructions)
- Screenshot placeholder [IMG: description]
- Time estimate
- Quality checklist: 5 verification points
- Troubleshooting: 3 common issues + fixes
- Revision history table

Make it foolproof for a new hire.

Prompt 13: Customer Persona

Create a detailed customer persona for [PRODUCT/SERVICE].

Include:

- Name & demographics (age, location, income, job)
- Psychographics (values, fears, goals, frustrations)
- Day in the life (morning to evening routine)
- Pain points (top 3, with emotional impact)
- Buying triggers (what makes them purchase)
- Objections (top 3 + rebuttals)
- Where they hang out (platforms, communities)
- Content they consume (podcasts, blogs, influencers)
- Watering holes (forums, groups, hashtags)

- Budget range for this solution

Make it specific and realistic, not generic.

Prompt 14: Pricing Strategy

Develop a pricing strategy for [PRODUCT/SERVICE].

Analyze:

1. Cost-based: calculate COGS + overhead + margin

2. Value-based: what's the perceived value to customer?

3. Competitor-based: what do competitors charge?

4. Psychological: charm pricing, anchoring, decoy effect

Recommend:

- 3 pricing tiers (Starter/Pro/Enterprise) with features

- Annual vs monthly discount

- Free trial vs freemium

- Launch pricing strategy (early bird, beta)

- Price increase timeline

Include: price elasticity estimate, willingness-to-pay research method.

Prompt 15: Competitor Analysis

Analyze competitors for [PRODUCT/SERVICE] in [MARKET].

For each competitor (top 5):

- Company overview (funding, size, positioning)

- Product features (comparison table)

- Pricing (all tiers)

- Strengths (3)

- Weaknesses (3)

- Marketing channels

- Customer reviews summary (common praise/complaints)

- Gap/opportunity for us

Output: competitive matrix + 3 strategic recommendations.

Category: AI & Automation

Prompt 16: AI Workflow Optimizer

Design an AI-powered workflow to automate [BUSINESS PROCESS].

Include:

- Current process (manual steps, time per step)
- AI automation opportunities (which steps can AI handle)
- Tool stack recommendation (free + paid)
- Prompt templates for each AI step
- Human-in-the-loop checkpoints
- Error handling & fallback
- Time savings calculation
- Implementation roadmap (week 1, 2, 3, 4)

Focus on practical, implementable solutions using existing AI tools.

Prompt 17: Chatbot Script

Write a customer service chatbot script for [BUSINESS].

Flows to cover:

1. Greeting + intent detection
2. FAQ (top 10 questions + answers)
3. Product recommendation (based on needs)
4. Order status check
5. Complaint handling (escalation path)
6. Appointment booking
7. Human handoff trigger

For each flow:

- Bot message (natural, helpful)
- User response options (buttons/quick replies)
- Fallback for unrecognized input
- Escalation criteria

Tone: friendly, efficient, not robotic.

Prompt 18: Data Analysis Prompt

Analyze this data and provide actionable insights:

Data: [PASTE DATA or describe dataset]

Context: [BUSINESS CONTEXT]

Analysis required:

1. Key trends (3-5)
2. Anomalies/outliers
3. Correlations
4. Segment breakdown
5. Forecast (next 30/90 days)
6. Recommendations (3-5, prioritized by impact)
7. Visualization suggestions (chart types)

Format: executive summary (3 sentences) + detailed findings + action items.

Prompt 19: SEO Content Brief

Create an SEO content brief for keyword: "[KEYWORD]"

Include:

- Primary keyword + variations
- Search intent analysis
- Target word count
- Content structure (H1, H2s, H3s)
- Key topics to cover (10-15)
- Questions to answer (from PAA)
- Competitor analysis (top 3 ranking pages)
- Internal linking opportunities
- Meta title (60 chars) + meta description (155 chars)
- Schema markup recommendation
- Content freshness plan

Make it actionable for a writer.

Prompt 20: Repurposing Engine

Repurpose this content into 10 different formats:

Original content: [PASTE CONTENT]

Create:

1. Twitter thread (5-7 tweets)
2. LinkedIn post (professional tone)
3. Instagram carousel (5 slides)
4. YouTube Shorts script (30-60 sec)
5. Email newsletter snippet
6. Blog post intro (150 words)
7. TikTok script (15-30 sec)
8. Pinterest pin description
9. Podcast talking points (5 bullets)
10. Quote graphic text (3 quotes)

Maintain core message across all formats. Adapt tone per platform.

Bonus: Prompt Usage Tips

Always provide context - The more specific your inputs, the better the output

Iterate - First draft is rarely perfect, refine with follow-up prompts

Chain prompts - Use output from one prompt as input to another

Set constraints - Word limits, tone, format requirements

Use examples - Show the AI what "good" looks like

How to Use This Pack

Copy the prompt you need

Replace [BRACKETED] placeholders with your specifics

Paste into ChatGPT, Claude, or any LLM

Review and refine the output

Save your best outputs for future reference
